

Children's Ministry at Missions Fest (year) – (dates)

Here is an Opportunity to Inform Children

- about Other Cultures Represented in (country), and
- present Current Spiritual Needs among them

We are inviting several Ethnic Churches to participated directly in the Children's Division of Missions Fest this year. Select a team of people who will work together and plan a variety of learning activities. Include teachers to participate in the team.

During each of the six weekend sessions, a different cultural group will be represented.

The goals are:

1. to present, in a variety of ways, the distinctives of their culture and involve the children in activities that will give them a taste of understanding and appreciation of their culture.
2. to present, the spiritual needs of their culture group who live in (country) and their homeland, and how children can reach out to them in significant ways.

Culture aspects that can be considered:

Dress, language, food, music, technology (artifacts), customs, religious expectations, family roles, celebrations, games, arts, etc.

Logistical information:

Location:

Rooms:
